

REMARKS

This Application has been carefully reviewed in light of the Office Action mailed February 13, 2004. At the time of the Office Action, Claims 16-21 were pending in this Application. Claims 1-15 and 22-25 were previously cancelled by Applicants without prejudice or disclaimer. Claims 16 was rejected under 35 U.S.C. §103. Claims 19-21 were allowed and Claims 17 and 18 were objected to as being dependent upon a rejected base claim. Claim 17 has been cancelled without prejudice or disclaimer. Applicants have amended Claims 16 and 18 to further define various features of the invention. New Claims 26 and 27 have been added. Applicants respectfully request reconsideration and favorable action in this case.

Rejections under 35 U.S.C. §103

Claim 16 was rejected under 35 U.S.C. §103(a) as being unpatentable over U.S. Patent 4,973,453 issued to Kenneth L. Agee ("Agee") in view of U.S. Patent 5,639,401 issued to Ludovicus Leonardus Gerardus Jacobs et al. ("Jacobs et al.").

Applicants appreciate the Examiner's consideration and indication that Claims 17 and 18 would be allowable if rewritten in independent form to include all of the limitations of the base claim and any intervening claims. Claim 16 has been amended to include selected limitations from Claim 17. Applicants have amended Claim 18 to include selected limitations from Claim 16. Applicants respectfully request withdrawal of all rejections and allowance of Claims 16 and 18 as amended.

Information Disclosure Statements

Pursuant to Examiner's telephone conversation with Tracy Perez on March 24, 2004, Applicants respectfully submit herewith copies of the following references for Examiner's convenience and reconsideration:

Applicants appreciate Examiner's reconsideration of these references.
